**APPLICATION FOR TRANSFER OF WELL OWNERSHIP**

*A well which has changed ownership*

**Rule 3.8 Transfer of well Ownership**

(a) Within 90 days after the date of a change in ownership of a well exempt under rule 2.1 the new well owner (transferee) shall notify the District in writing of the effective date of the change in ownership, the name, daytime telephone number, and mailing address of the new well owner, along with any other contact or well-related information reasonably requested by the general manager. The new well owner may, in addition, be required to submit an application for registration of an existing well if a registration does not yet exist for the well.

(b) Within 90 days after the date of a change in ownership of a well that is not exempt under District Rule 2.1 from fee payment, metering, and reporting requirements of these rules, the new well owner (transferee) shall submit to the district, on a form provided by the District Staff, a signed sworn-to application for transfer of ownership.

(c) If a registrant conveys any lawful and legally enforceable means to another person the real property interests in one or more wells or a well system that is recognized in the registration so that the transferring party (the transferor) is no longer the "well owner" as previously approved by the district, the district shall recognize the person to whom such interests were conveyed (the transferee) as the legal holder of the registration, subject to the conditions and limitations of these District Rules.

(d) The burden of proof in any proceeding related to a question of well ownership or status as the legal holder of a registration issued by the district and the rights thereunder shall be on the person claiming such ownership or status.

(e) No application made pursuant to Subsection (b) of this rule shall be granted by the district unless all outstanding fees, penalties, and compliance matters have first been fully and finally paid or otherwise resolved by the transferring party (transferor) for all wells included in the application or existing registration, and each well and registration made the subject of the application is otherwise in good standing with the District.
